REVIEW OF RESULTS

Basically, the principal business activities of the Group remain the same for both years 2005 and 2004. Turnover of the Group decreased by 19.5% from HK\$685.2 million in 2004 to HK\$551.8 million in 2005. In 2005, an insignificant amount of turnover was recorded in respect of sales of development properties comparing to a turnover of HK\$152.2 million in 2004. The decrease in turnover of sales of development properties was the major reason leading to the decrease in the Group's turnover.

In 2005, turnover of dealings in distressed assets decreased by HK\$15.7 million and turnover of investment increased by HK\$25.4 million. The magnitudes of the former approximated to that of the later and thus did not have a material net effect to the movement of the Group's turnover.

Other income recorded an increase of HK\$78.3 million. The reasons for the increase were firstly attributable to the increase in interest income in the amount of HK\$41.4 million. The Group accumulated a cash balance in excess of HK\$1.0 billion in the fourth quarter of 2004. Throughout the year 2005, the Group maintained a relatively high amount of average cash balances, which enabled the Group to earn extra interest income during a period of rising deposit interest rates. Secondly, there was an unrealized holding gain in the amount of HK\$44.9 million in respect of investment in held-for-trading investments recorded only in the year.

Increase in administrative expenses of HK\$7.2 million was mainly due to the increase in staffing cost of HK\$10.9 million and payment of additional direct costs such as professional fees, legal fees and

Management Director's Statement
董事總經理報告

Increase in finance costs amounted to HK\$27.6 million. The increase in finance costs were due to the issuance of convertible notes with principal amount of HK\$817.1 million in aggregate by the Group in November 2004. The convertible notes have interest charges for less than two months in 2004 but a whole year for 2005. Despite of the coupon interest rates of the convertible notes were 1.5% p.a., interest for one of the convertible notes was charged at 4.48% p.a. in accordance with the requirements of the new accounting policy.

In 2005, the Group increased its investment in Beijing East Gate Development Co., Ltd. ("East Gate") by acquiring an additional 7.99% equity interest of East Gate from a minority shareholder. The acquisition resulted in a discount on acquisition (previously known as negative goodwill) in the amount of HK\$73.5 million and was recognized as income for the current year. There was no such income in last year.

Managing Director's Statement
董事總經理報告

During the year, the Group has increased its investment in East Gate by acquiring an additional equity interest of 7.99% from a minority shareholder of East Gate at a total consideration of HK\$13.4 million. The acquisition resulted in a negative goodwill of HK\$73.5 million and was recognized as income during the year. In the third quarter of 2005, agreements were entered between the Group and the remaining minority shareholders of East Gate to acquire the remaining equity interests in East Gate. The total consideration payable by the Group was HK\$25.3 million. When the acquisition was completed, East Gate will become a wholly owned subsidiary of the Group. In addition, a

Distressed Assets Business

The Macau Assets

Basically, the disposal of the Macau Assets has substantially been completed during the year. The Group received a further performance return in the amount of HK\$100.0 million from the disposal of the Macau Assets. There is only a small amount of Macau Assets remained and are pending for further disposal. The Directors expect that there will only be nominal income generated from the disposal of the remaining Macau Assets.

The Cinda Portfolio

For the current year, the Cinda Portfolio has contributed HK\$130.9 million interest income to the Group. Up to 31 December 2005, the principal amount of distressed assets in the Cinda Portfolio that has been disposed of was approximately HK\$18.6 billion in aggregate, representing approximately 34.4% of total principal amount of the Cinda Portfolio. The amount of cash recovered was approximately HK\$664.8 million in aggregate. The effective cash recovery rate was approximately 3.6%. The Group has set a target to complete the disposal of the Cinda Portfolio in the second quarter of 2007. To speed up the disposal of the Cinda Portfolio, the Directors of the Company and China Cinda have decided to break the Cinda Portfolio into smaller packages of distressed assets and to dispose of these packages of distressed assets by auctions or other possible means. However, if opportunity arises, the Directors and China Cinda will keep disposing of the Cinda Portfolio on an individual basis, which will have a higher cash recovery rate.

Strategic Partner

By the end of 2005, Citigroup Financial Products Inc. ("CFPI") and the Company strengthened their corporation in the aspects of investing in distressed assets through setting up a joint venture known as Platinum One Limited ("Platinum One"). CFPI and the Company owned Platinum One equally. Both CFPI and the Company have intention to utilize Platinum One as the investment vehicle for all the distressed assets deals identified in the future.

不良資產業務

澳門資產

澳門資產之處置工作基本上已於年內完成。本集團從處置澳門資產額外收取100,000,000港元超收分成。現時只剩餘少量澳門資產仍待處置。董事預期處置餘下之澳門資產僅能產生有限收益。

信達資產包

於本年內，信達資產包為本集團貢獻130,900,000港元收益。截至二零零五年十二月三十一日，已處置之信達資產包不良資產本金金額累計總額約18,600,000,000港元，約相當於信達資產包本金總額之34.4%。累計處置回收現金約為664,800,000港元。折算所得之現金回收率約為3.6%；本集團已訂立目標在二零零七年二季度完成處置信達資產包。為加速處置信達資產包，董事會及中國信達已決定把信達資產包分割成為數額較少的債權資產小包並通過拍賣方式或其他可行方法處置該等小包。然而，若遇到合適機會，董事會及中國信達將會維持以單一債權方式處置信達資產包以求取的較高的現金回收率。

策略夥伴

於二零零五年年底，Citigroup Financial Products Inc.「CFPI」與本公司透過成立合營公司Platinum One Limited(Platinum One)加強雙方於不良資產投資領域的合作。CFPI與本公司共同擁有Platinum One。CFPI與本公司有意利用Platinum One作為投資於未來落實的不良資產項目的投資主體。

The Huarong Portfolio

On 22 November 2005, Platinum One entered into conditional agreements with China Huarong Asset Management Corporation ("China Huarong") to acquire from Huarong a portfolio of distressed assets in the principal amount of RMB36.4 billion (equivalent to HK\$35.0 billion) including booked interests (the "Huarong Portfolio"). The Huarong Portfolio was acquired at a total consideration of RMB546.6 million (equivalent to approximately HK\$525.6 million). The consideration represented 1.5% of the principal amount, including booked interests, of the Huarong Portfolio. At the same time, China Huarong was also appointed to assist Platinum One in servicing the collection of the Huarong Portfolio. Huarong in return is entitled to receive a management fee calculated as 10% of the cash recovered. Huarong is also entitled to share the profits generated from the disposal of the Huarong Portfolio according to a defined profit sharing scheme.

The Huarong Portfolio comprises a total of 11,126 borrowers located in a total of 27 provinces, directly administrated municipalities and autonomies in the PRC. The Group has set a target to complete the disposal of the Huarong Portfolio in two years' time.

Apart from the Huarong Portfolio, CFPI, the Company and Platinum One are actively searching for and are currently considering making investments in one or several distressed assets. Platinum One expects to conclude at least one of them in the near future.

Other Investments

The Group will utilize an appropriate portion of the temporarily idled funds to invest, on a medium term basis, in listed securities. The Directors will make judgment and will invest very selectively in listed securities with good capital appreciation potentials.

In 2005, the Group has conditionally agreed to invest in a 12% equity interest in a Chinese medicine manufacturer known as Tong Ji Tang at a total consideration of RMB100.0 million (equivalent to approximately HK\$96,100 million). The Group has paid a deposit of RMB43.0 million (equivalent to approximately HK\$41.3 million) during the year. The balance will be paid upon the fulfillment of certain condition precedents. The principal business of Tong Ji Tang is the manufacturing of a drug to cure osteoporosis. Tong Ji Tang has planned to seek listing on the Nasdaq and has commenced the pre-listing formalities. Tong Ji Tang expects to get listed in the third or fourth quarter of 2006. The Directors believe that investment in Tong Ji Tang will make good profit to the Group.

華融資產包

於二零零五年十一月二十二日，Platinum One與中國華融資產管理公司(「中國華融」)達成有條件協議，向中國華融收購一項本金額為364億人民幣(相等於350億港元)包括表內利息之不良資產組合(「華融資產包」)。華融資產包之收購總代價為546,600,000人民幣(相等於約525,600,000港元)。代價等於華融資產包本金額(包括表內利息)的1.5%。與此同時，中國華融亦受委託協助Platinum One處置回收華融資產包。中國華融有權收取按收回現金的10%計算之管理費作為報酬。中國華融同時亦有權根據一項事先協定的利潤分成機制，分享處置華融資產包產生的利潤。

華融資產包由分散於全國各地、共27個省、直轄市及自治區、總數11,126個債務人所組成。本集團已定立目標，於兩年之內完成處置華融資產包。

除了華融資產包外，CFPI、本公司及Platinum One正積極尋找並且目前正考慮投資於一個或多個不良資產。Platinum One期望於短期內最少落實一個投資決定。

其他投資

本集團將適當地利用部份臨時閒置之資金透過以中期持有方式投資於上市證券。董事會將作出判斷並會非常選擇性地投資於具有資本增值潛力的上市證券。

於二零零五年本集團有條件地同意以總代價人民幣100,000,000元(相等於96,100,000港元)投資持有一間以同濟堂名義從事中藥生產的企業的12%股份權益。本集團已於年內支付定金人民幣43,000,000元(相等於41,300,000港元)；餘款將於若干先決條件獲達成後支付。同濟堂的主要業務為生產一種專門醫治骨質疏鬆的藥物。同濟堂已計劃於美國納斯達克交易所尋求上市，並已展開了上市前的相關工作。同濟堂預期將可於二零零六年第三或第四季度取得上市地位。董事相信投資於同濟堂將可為本集團帶來良好回報。

GROWTH STRATEGIES

發展策略

The Group will continue to invest in the core business of properties, infrastructure investments and financial investments at a balanced pace. The business emphasis will be adjusted according to the prevailing economic environment and market growth trend. Regarding to financial investments, the current target is still to participate mainly in the distressed assets business. In light of favorable conditions brought about by the vigorously growing PRC economy, the Group will keep increasing its investment in distressed assets business, which is expected to bring significant returns to the shareholders. Since the eleventh Five-Years Plan of China is principally to encourage internal demand and expenditure, increased demand and expenditure will inevitably lead to price rises in properties. Therefore, the Group will also increase its investment in the business of property development with an emphasis on developing middle class and medium scale projects and/or "Si He Yuan" projects in principal.

FINANCIAL REVIEW

Exchange Exposure & Hedging

As at 31 December 2005, the Group had a USD denominated convertible notes in the principal amount of USD52.5 million (equivalent to HK\$409.5 million).

Except for the above, the Group's principal assets, liabilities, revenue and payments are denominated in HKD and RMB. Recently the RMB exchange rate is appreciating gradually. The Directors believe that the RMB exchange rate will continue to appreciate gradually in the medium term but there is unlikely to have a sudden surge in the RMB exchange rate. In addition, HKD is pledged to the USD and such currency peg is unlikely to break in the foreseeable future. In this regard, the Directors believe that exposure to exchange rate fluctuations will not have material adverse effect on the Group.

The Group's policy is not to engage in any speculative activity other than making appropriate arrangements for hedging purposes where the business requires. There was no hedging transaction contracted for by the Group during the year.

Working Capital & Borrowings

The Group's total borrowings excluding convertible notes as at 31 December 2005 amounted to approximately HK\$658.7 million of which approximately HK\$651.8 million was short-term bank loan and bank overdraft and the remaining was long-term mortgage loan. Over 80% of the short-term bank loan was represented by the working capital loan to East Gate and the remaining was the current portion of a long-term mortgage loan and bank overdraft. Interest rate for the short-term bank loan was charged at floating rate and the prevailing applicable interest rate was between 4.13% and 5.58 % per annum. The interest rate for the long-term mortgage loan was charged at floating rate and the prevailing applicable interest rate was 5.375% per annum. The Group also has convertible notes with a total outstanding amount of approximately HK\$866.1 million. Approximately 50% of the convertible notes were due within one year and the remaining were due after one year. The convertible notes have a coupon rate of 1.5% per annum but interest for one of the convertible note was charged to income at notional market rate of 4.48% per annum effective from 1 January 2005 in accordance with the new accounting policy.

The Company is negotiating with a local bank for a long-term loan facility in the amount of HK\$600.0 million to HK\$800.0 million for the purpose of replacing the existing RMB denominated working capital loan of East Gate. If concluded, the Group will have a better working capital structure on one hand and can also minimize a possible exchange loss caused by the appreciation of RMB on the other hand.

As at 31 December 2005, the cash and bank balances (net of bank overdraft) was HK\$531.9 million and the net current assets amounted to HK\$238.3 million. In December 2005, the Group paid approximately HK\$527.4 million to acquire the Huarong Portfolio. In January 2006, the disposal of 50% equity interest in Platinum One, which holds the

2. 應用香港財務報告準則

在本年度，本集團首次應用香港會計師公會新頒佈之若干香港財務報告準則（「香港財務報告準則」）、香港會計準則（「香港會計準則」）及詮釋（在下文統稱「新香港財務報告準則」）。該等準則適用於二零零五年一月一日或之後開始之會計期間。應用新香港財務報告準則導致綜合收入報表、綜合資產負債表以及綜合權益變動報表的呈列方式有所改變，尤其是有關少數股東權益及應佔聯營公司稅項的呈列方式，該等呈列方式的改變已追溯應用。採納新香港財務報告準則導致本集團在以下範疇之會計政策有所改變，並對本會計年度及過往會計年度之編製及呈列方式構成影響：

Excess of the Group's interest in the net fair value of acquiree's identifiable assets, liabilities and contingent liabilities over cost (previously known as "negative goodwill")

In accordance with HKFRS 3, any excess of the Group's interest in the net fair value of acquiree's identifiable assets, liabilities and contingent liabilities over the cost of acquisition ("discount on acquisition") is recognised immediately in profit or loss in the period in which the acquisition takes place. In previous periods, negative goodwill arising on acquisitions prior to 1 January 2001 was held in reserves, and negative goodwill arising on acquisitions after 1 January 2001 was presented as a deduction from assets and released to income based on an analysis of the circumstances from which the balance resulted. In accordance with the relevant transitional provisions in HKFRS 3, the Group derecognised all negative goodwill on 1 January 2005 (of which negative goodwill of HK\$12,233,000 was previously recorded in reserves and of HK\$59,376,000 was previously presented as a deduction from assets). A corresponding adjustment to the Group's accumulated profits of HK\$71,609,000 has been made. During the year ended 31 December 2005, the Group recognised approximately HK\$73,476,000 of discount on acquisition of additional equity interest in a subsidiary (see Note 3 for the financial impact).

Financial instruments

In the current year, the Group has applied HKAS 32 "Financial instruments: Disclosure and Presentation" and HKAS 39 "Financial instruments: Recognition and Measurement". HKAS 32 requires retrospective application. HKAS 39, which is effective for annual periods beginning on or after 1 January 2005, generally does not permit the recognition, derecognition or measurement of financial assets and liabilities on a retrospective basis. The principal effects of the application of HKAS 32 and HKAS 39 to the Group are summarised below:

Derecognition

HKAS 39 provides more rigorous criteria for the derecognition of financial assets than the criteria applied in previous periods. Under HKAS 39, a financial asset is derecognised, when and only when, either the contractual rights to the asset's cash flows expire, or the asset is transferred and the transfer qualifies for derecognition in accordance with HKAS 39. The decision as to whether a transfer qualifies for derecognition is made by applying a combination of risks and rewards and control tests. The Group has applied the relevant transitional provisions and applied the revised accounting policy prospectively to transfers of financial assets from 1 January 2005 onwards. As a result, the Group's distressed assets of HK\$219,238,000 which were derecognised prior to 1 January 2005 due to partial disposal and recoveries have not been restated.

Classification and measurement of financial assets and financial liabilities

The Group has applied the relevant transitional provisions in HKAS 39 with respect to the classification and measurement of financial assets and financial liabilities that are within the scope of HKAS 39.

不再確認

香港會計準則第39號規定，有關不再確認金融資產採納之準則較以往期間所採用者更為嚴格。根據香港會計準則第39號，金融資產僅會於資產現金流量之合約權利到期時，或資產已轉讓及有關轉讓根據香港會計準則第39號符合資格不再確認時，方會不再確認。混合風險及回報及控制測試之方式乃用以決定有關轉讓是否符合不再確認之資格。本集團已由二零零五年一月一日起就轉讓金融資產應用相關過渡條文及應用經修訂之會計政策。因此，本集團因部分出售及收回而於二零零五年一月一日前不再確認之不良資產219,238,000港元並無重列。

本集團已就香港會計準則第39號所界定之金融資產及金融負債範圍內，應用有關分類及計量的過渡條文。

Financial assets and financial liabilities other than debt and equity securities

From 1 January 2005 onwards, the Group has classified and measured its financial assets and financial liabilities other than debt and equity securities (which were previously outside the scope of SSAP 24) in accordance with the requirements of HKAS 39. As mentioned above, financial assets under HKAS 39 are classified as "financial assets at fair value through profit or loss", "available-for-sale financial assets", "loans and receivables" or "held-to-maturity financial assets". Financial liabilities are generally classified as "financial liabilities at fair value through profit or loss" or "other financial liabilities". Financial liabilities at fair value through profit or loss are measured at fair value, with changes in fair value being recognised in profit or loss directly. Other financial liabilities are carried at amortised cost using the effective interest method after initial recognition. The change in this accounting policy has had no material effect on results and financial position of the Group except for the interest in distressed assets as described below.

Interest in distressed assets

Prior to 1 January 2005, the Group measured the interest in distressed assets at cost less any subsequent identified impairment loss. The gain or loss arising on the disposal of all or part of the interest in distressed assets was determined as the difference between the sales proceeds and the allocated cost of the assets disposed of and is recognised in the income statement. The income from recoveries of the interest in distressed assets was determined as amount recovered from the individual debtors in excess of the allocated costs and were recognised in the income statement.

From 1 January 2005 onwards, interest in distressed assets which is reclassified as loans and receivables under HKAS 39, is stated at amortised cost using effective interest rate method less impairment allowance. The interest income from interest in distressed assets is accrued on a time basis by reference to the estimated future cashflows and at original effective interest rate. The original effective interest rate is the rate that exactly discounts the estimated future cash inflows arising from recoveries or collection, net of estimated future cash outflows arising from directly attributable costs such as management fee and incentive bonus through the expected life of the distressed assets, to the consideration paid. The impairment allowances are made on loans and receivables when there is objective evidence of impairment as a result of the occurrence of certain loss events that will impact on the estimated future cash flows discounting using the original effective interest rate.

債務及股本證券以外之金融資產及金融負債

自二零零五年一月一日起,本集團根據香港會計準則第39號之規定將其債務及股本證券以外之金融資產及金融負債(過往不屬會計實務準則第24號之範圍)分類及計量。誠如上文所述,金融資產根據香港會計準則第39號分類為「於損益表按公平值處理的金融資產」、「可出售金融資產」、「貸款及應收款項」或「持有至到期日金融資產」。金融負債一般分類為「於損益表按公平值處理的金融負債」或「其他金融負債」。於損益表按公平值處理的金融負債按公平值計量,公平值變動直接於損益表確認。其他金融負債於初步確認後採用實際利率法按攤銷成本列賬。除下述不良資產權益外,此會計政策變動對本集團之業績及財務狀況並無重大影響。

不良資產權益

於二零零五年一月一日前,本集團按成本減任何其後已識別之減值虧損計量不良資產權益。出售全部或部分不良資產權益產生之盈虧乃按出售所得款項與所出售資產獲分配成本之差額釐定,並於收入報表內確認。回收不良資產權益的收入按個別應收債項回收之金額超出獲分配成本之差額釐定,並於收入報表內確認。

自二零零五年一月一日起,根據財務報告準則第39號規定重新分類為貸款及應收款項之不良資產權益採用實際利率法以攤銷成本扣減減值撥備列賬。不良資產權益利息收入經參照未償還本金及估計之未來現金流量及原實際利率以時間基準計算,原實際利率為透過不良資產之預計年期,準確貼現從回收或收集產生之估計未來現金流入並扣除管理費及獎金等直接應佔成本後產生之現金流出至等於已收代價之利率。倘有客觀證據證明因發生若干會對採用原實際利率貼現之估計未來現金流量構成影響之損失事件而出現減值,則會對貸款及應收款項作出減值撥備。

Under HKAS 32, a convertible option should only be classified as equity instruments if the conversion option embedded in the convertible notes will be settled by exchange of a fixed amount of cash for a fixed number of the equity instruments. For other embedded options that will be settled other than by the exchange of a fixed amount of cash for a fixed number of the equity instruments, the embedded options would be classified as financial liability. In accordance with HKAS 39, such embedded options are treated as separate derivatives when their economic risks and characteristics are not closely related to those of the host contract (the liability component) and the host contract is not carried at fair value through profit or loss.

Owner-occupied leasehold interest in land

In previous years, owner-occupied leasehold land and buildings were included in property, plant and equipment and measured using the revaluation model. In the current year, the Group has applied HKAS 17 Leases. Under HKAS 17, the land and buildings elements of a lease of land and buildings are considered separately for the purposes of lease classification, unless the lease payments cannot be allocated reliably between the land and buildings elements, in which case, the entire lease is generally treated as a finance lease. To the extent that the allocation of the lease payments between the land and buildings elements can be made reliably, the leasehold interests in land are reclassified to prepaid lease payments under operating leases, which are carried at cost and amortised over the lease term on a straight-line basis. Alternatively, where the allocation between the land and buildings elements cannot be made reliably, the leasehold interests in land continue to be accounted for as property, plant and equipment. The adoption of this standard has had no material effect on how the results for the current or prior accounting years are prepared and presented.

Investment properties

In the current year, the Group has, for the first time, applied HKAS 40 Investment Property. The Group has elected to use the fair value model to account for its investment properties which requires gains or losses arising from changes in the fair value of investment properties to be recognised directly in profit or loss for the year in which they arise. In previous years, investment properties under the predecessor Standard were measured at open market values, with revaluation surplus or deficits credited or charged to investment property revaluation reserve unless the balance on this reserve was insufficient to cover a revaluation decrease, in which case the excess of the revaluation decrease over the balance on the investment property revaluation reserve was charged to the income statement. Where a decrease had previously been charged to the income statement and a revaluation surplus subsequently

Goodwill arising on acquisitions on or after 1 January 2005 (Continued)

For the purposes of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the acquisition. A cash-generating unit to which goodwill has been allocated is tested for impairment annually, and whenever there is an indication that the unit may be impaired. For goodwill arising on an acquisition in a financial year, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that financial year. When the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated to reduce the carrying amount of any goodwill allocated to the unit first, and then to the other assets of the unit pro rata on the basis of the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in the income statement. An impairment loss for goodwill is not reversed in subsequent periods.

On subsequent disposal of a subsidiary, the attributable amount of goodwill capitalised is included in the determination of the amount of profit or loss on disposal.

Excess of an acquirer's interest in the net fair value of an acquiree's identifiable assets, liabilities and contingent liabilities over cost ("discount on acquisitions")

A discount on acquisition arising on an acquisition of a subsidiary or acquisition of additional interest in a subsidiary for which an agreement date is on or after 1 January 2005 represents the excess of the net fair value of an acquiree's identifiable assets, liabilities and contingent liabilities over the cost of the business combination or consideration. Discount on acquisition is recognised immediately in profit or loss.

As explained in Note 3 above, all negative goodwill as at 1 January 2005 has been derecognised with a corresponding adjustment to the Group's accumulated profits.

二零零五年一月一日或之後因收購所產生之商譽(續)

就減值檢測而言，因收購所產生之商譽分配至各有關現金產生單位，或現金產生單位之組別，預期彼等將從收購之協同效應中受惠。已獲分配商譽之現金產生單位每年及每當有跡象顯示單位可能出現減值時進行減值檢測。就於某一財政年度因收購所產生之商譽而言，已獲分配商譽之現金產生單位於該財政年度完結前進行減值檢測。當現金產生單位之可收回金額低於該單位之賬面值，則會分配減值虧損，以削減首先分配至該單位，及其後以單位各資產之賬面值為基準按比例分配至該單位之其他資產之任何商譽之賬面值。商譽之任何減值虧損乃直接於收入報表內確認。商譽之減值虧損於繼後期間不予撥回。

於其後出售附屬公司時，資本化之商譽之應佔金額會用以釐定出售損益之金額。

收購公司應佔所收購公司之可識別資產、負債及或然負債之公平值淨額高於成本之差額(「收購折讓」)

因收購附屬公司或收購附屬公司之額外權益(其協議日期為二零零五年一月一日或以後)所產生之收購折讓乃指所收購公司之可識別資產、負債及或然負債之公平值淨額高於業務合併成本或代價之差額。收購折讓即時確認為溢利或虧損。

誠如上文附註3所闡釋，本集團已於二零零五年一月一日不再確認所有負商譽，並相應調整累積溢利。

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments in associates

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting. Under the equity method, investments in associates are carried in the consolidated balance sheet at cost as adjusted for post-acquisition changes in the Group's share of the profit or loss and of changes in equity of the associate, less any identified impairment loss. When the Group's share of losses of an associate equals or exceeds its interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. An additional share of losses is provided for and a liability is recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that associate.

Where a group entity transacts with an associate of the Group, profits and losses are eliminated to the extent of the Group's interest in the relevant associate.

Investment properties

On initial recognition, investment properties are measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured using the fair value model. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use or no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement in the year in which the item is derecognised.

Property, plant and equipment

Property, plant and equipment are stated at cost or fair value less accumulated depreciation and identified impairment loss.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purpose, are stated in the balance sheet at their revalued amount, being the fair value at the date of revaluation less any subsequent accumulated impairment losses and subsequent accumulated depreciation. Revaluations are performed with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair values at the balance sheet date.

Any surplus arising on revaluation of land and buildings is credited to the asset revaluation reserve, except to the extent that it reverses a revaluation deficit of the same asset previously recognised as an expense, in which case this surplus is credited to the income statement to the extent of the deficit previously charged. A decrease in net carrying amount arising on revaluation of an asset is charged to the income statement to the extent that it exceeds the balance, if any, on the asset revaluation reserve relating to a previous revaluation of that asset. On the subsequent sale or retirement of a revalued asset, the attributable revaluation surplus is transferred to accumulated profits.

Depreciation is provided to write off the cost or fair value of property, plant and equipment over their estimated useful lives, using the straight line method on the following basis:

Leasehold land and buildings	Over the unexpired lease term
Leasehold improvements	3 years
Furniture and fixtures	10 years
Office equipment	5 years
Motor vehicles	6 — 10 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the income statement in the year in which the item is derecognised.

Non-current assets held for sales

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the assets (or disposal groups) is available for immediate sale in its present condition.

Non-current assets and disposal groups classified as held for sale are measured at the lower of the assets' (or disposal groups') previous carrying amount and fair value less costs to sell.

物業、廠房及設備

持作生產或提供貨品或服務用途，或作行政用途之土地及樓宇乃按其重估金額於資產負債表列賬，重估金額乃指於重估日期之公平值減任何其後之累積減值虧損及其後之累積折舊。重估乃按照足夠符合規定之方式進行，令賬面值不會與於結算日使用公平值釐定之價值有重大差別。

重估土地及樓宇所產生之任何盈餘均計入資產重估儲備，但若該同一資產先前保留一項重估減值而被確認為一項支出，則在此情況下此盈餘中相當於先前被扣除之虧損會列入收入報表內。因重估資產而產生之賬面值淨額之減少超逾以往重估該資產有關之資產重估儲備結餘(如有)，則須於收入報表內扣減。其後出售或報廢重估資產時，應佔重估盈餘將撥為累積溢利。

折舊乃採用直線法按照根據其估計可使用年期提撥，以撇銷物業、廠房及設備之成本或公平值，基準如下：

租賃土地及樓宇	按剩餘租約年期
租賃物業裝修	3年
傢俬及裝修	10年
辦公室設備	5年
汽車	6-10年

物業、廠房及設備項目於出售時或當預期持續使用資產不會產生未來經濟利益時不再確認。任何不再確認資產所產生之損益(以出售所得款項淨額與項目賬面值之差額計算)於不再確認項目年度計入收入報表。

持作銷售非流動資產

倘非流動資產及出售組合之賬面值主要通過銷售交易而非通過持續使用收回，則該項非流動資產及出售組合將列作持作銷售。僅於銷售機會相當及資產(或出售組合)可於現況下可即時出售時，方被視為符合本條件。

列作持作銷售非流動資產及出售組合按資產(出售組合)過往賬面值與公平值扣減銷售成本之較低者計量。

Stock of properties

Stock of properties represents properties under development for sale and properties held for sale.

The carrying value of properties under development comprises the interest in leasehold land together with development expenditure, which includes construction costs, capitalised interest and ancillary borrowing costs, less foreseeable losses. The stock of properties are stated at the lower of cost and net realisable value.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the weighted average method.

Revenue recognition

The interest income from interest in distressed assets is accrued on a time basis by reference to the estimated future cashflows and at effective interest rate. The effective interest rate is the rate that exactly discounts the estimated future cash inflows arising from recoveries or collection, net of the estimated future cash outflows arising from directly attributable costs such as management fee and incentive bonus through the expected life of the distressed assets, to the assets' net carrying amounts.

In prior period, the income from recoveries of interest in distressed assets was recognised in the income statement, on individual distressed asset basis, which was determined as amount recovered from the individual debtors in excess of the allocated costs. The gain or loss arising on the disposal of all or part of the interest in distressed assets was determined as the difference between the sales proceeds and allocated the cost of the assets disposed of and is recognised in the income statement.

Where the actual future net cash inflows are more than expected, the revised cashflow will be discounted using the effective interest rate. The difference between the carrying amounts will be adjusted to reflect the revised estimated cash flows discounted using the original effective rate. The adjustment is recognized in the income statement.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated or not classified as any of the other categories under HKAS 39. At each balance sheet date subsequent to initial recognition, available-for-sale financial assets are measured at fair value. Changes in fair value are recognised in equity, until the financial asset is disposed of or is determined to be impaired, at which time, the cumulative gain or loss previously recognised in equity is removed from equity and recognised in profit or loss. Any impairment losses on available-for-sale financial assets are recognised in profit or loss. Impairment losses on available-for-sale equity investments will not reverse in subsequent periods. For available-for-sale debt investments, impairment losses are subsequently reversed if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

For available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments, they are measured at cost less any identified impairment losses at each balance sheet date subsequent to initial recognition. An impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired. The amount of the impairment loss is measured as the difference between the carrying amount of the asset and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses will not reverse in subsequent periods.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and short term deposits with an original maturity of not more than three months, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. Bank balances and short term deposits are subsequently measured at amortized cost using the effective interest rate method.

可出售金融資產

可出售金融資產為非衍生工具，被指定為此類別或並無分類為根據香港會計準則第39號之任何其他類別(載於上文)。於初步確認後每一結算日，可出售金融資產以公平值計量。公平值變動於股本確認，直至該項金融資產出售或釐定出現減值為止，屆時，先前於股本確認之累計盈虧將自股本剔除，並於損益確認。可出售金融資產之任何減值虧損均於損益確認。可出售股本投資之減值虧損將不會於繼後期間撥回。就可出售債務投資而言，倘投資公平值之增幅客觀地與確認減值虧損後所發生之事件有關，減值虧損其後方會撥回。

就沒有活躍市場報價及其公平值不能可靠地計量之可出售股本投資，及與該等無報價股本投資掛澗並須以交付該等股本投資結算之衍生工具而言，乃於初步確認後每一結算日按成本扣除任何已識別減值虧損計量。倘有客觀證據證明資產出現減值，則減值虧損會於損益表確認。減值虧損金額乃按資產賬面值與按類似金融資產之現行市場回報率貼現之估計未來現金流量之現值兩者之差額計量。減值虧損於繼後期間不予撥回。

Financial instruments (Continued)

Financial liabilities and equity

Financial liabilities and equity instruments issued by a group entity are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities. The Group's financial liabilities are generally classified into financial liabilities at fair value through profit or loss and other financial liabilities. The accounting policies adopted in respect of financial liabilities and equity instruments are set out below.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss has two subcategories, including financial liabilities held for trading and those designated at fair value through profit or loss on initial recognition. At each balance sheet date subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value, with changes in fair value recognised directly in profit or loss in the period in which they arise.

Other financial liabilities

Other financial liabilities including trade payables, deposits, other payables, accruals for management fee to holding company of a shareholder, amounts due to associates and bank borrowings are subsequently measured at amortised cost, using the effective interest rate method.

The transaction costs that are directly attributable to borrowings are included in the carrying amount on the initial recognition. The difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognized using effective interest rate method.

Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

股本工具乃證明本集團於扣減其所有負債後之資產剩餘權益之任何合約。本集團之金融負債一般分類為於損益表按公平值處理的金融負債及其他金融負債。所採納與金融負債及股本工具有關之會計政策載於下文。

於損益表按公平值處理的金融負債

於損益表按公平值處理的金融負債有兩個次分類，包括持作買賣金融負債及於初步確認時指定為於損益表按公平值處理的金融負債。於初步確認後每一結算日，於損益表按公平值處理的金融負債以公平值計量，公平值變動直接確認於產生期間之損益。

All other borrowing costs are recognised as an expense in the period in which they are incurred.

於編製各個別集團實體之財務報表時，該實體以功能貨幣以外貨幣(外幣)進行之交易，按交易當日適用之匯率以其功能貨幣(即該實體經營業務所在主要經濟環境之貨幣)記錄。於每一結算日，以外幣為單位之貨幣項目按結算日適用之匯率再次換算。按公平值列賬而以外幣為單位之非貨幣項目按釐定公平值當日適用之匯率再次換算。按歷史成本以外幣計量之非貨幣項目則不會再次換算。

因貨幣項目結算及於換算貨幣項目時產生之匯兌差額於確認於產生期間之損益內。因再次換算按公平值列賬之非貨幣項目所產生之匯兌差額計入期內損益，惟因再次換算其盈虧直接於股本確認之非貨幣項目所產生之匯兌差額除外，在該情況下，匯兌差額亦直接於股本確認。

The Group as lessee

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are recognised as a reduction of rental expense over the lease term on a straight-line basis.

Retirement benefit costs

Payments to the state-managed retirement benefit schemes for staff in the People's Republic of China, excluding Hong Kong and Macau (the "PRC") and to the Mandatory Provident Fund Scheme for staff in Hong Kong are charged as expense as they fall due.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY

Estimated impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. As at 31 December 2005, the carrying amount of goodwill is approximately HK\$33,525,000. Details of the recoverable amount calculated are disclosed in note 21.

Impairment allowances of loans and receivables

The policy for impairment of loans and receivables of the Group is based on the evaluation of expected future cash flows on management's judgment. A considerable amount of judgment is required in estimating the expected future cash flows. If the future estimated cash flows are less than expected, additional allowances may be required.

本集團作為承租人

根據營運租賃應繳付之租金乃於有關租約年內按直線基準賬記損益表支出。已收及應收作為訂立營運租賃之獎勵之利益於租約年內按直線基準確認為租賃支出減少。

退休福利成本

為中華人民共和國，不包括香港及澳門(「中國」)員工之國家管理退休福利計劃及香港員工之強制性公積金計劃作出之供款，乃於到期時以支出入賬。

5. 重要會計判斷及主要不確定估計來源

估計商譽減值

釐定商譽是否出現減值時須估計商譽所獲分配之現金產生單位使用價值。本集團計算使用價值時需就預期源自該現金產生單位之未來現金流量及合適之貼現率作出估計，以計算現值。於二零零五年十二月三十一日，商譽之賬面值約為33,525,000港元。可收回金額之計算詳情於附註21披露。

貸款及應收款項減值撥備

本集團之貸款及應收款項減值政策乃根據評估預期未來現金流量之管理層判斷而制定。於評估預期未來現金流量時，需要作大量判斷。倘估計未來現金流量低於預期，則可能需作出額外撥備。

6. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's major financial instruments include available-for-sale investments, interest in distressed assets, loans receivables, held-for-trading investments, trade receivables, deposits and other receivables, amounts due from associates, restricted bank balance, pledged bank deposit, bank balances and cash, assets classified as held for sale, trade payables, rental deposits and other payables, amount due to associates, accruals for management fee to holding company of a shareholder, borrowings, convertible note and convertible note at fair value through profit or loss. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Credit risk

The Group's maximum exposure to credit risk in the event of the counterparties' failure to perform their obligations as at 31 December 2005 in relation to each class of recognised financial assets is the carrying amount of those assets as stated in the consolidated balance sheet. In order to minimise the credit risk, the directors continuously monitor the level of exposure to ensure that follow-up action and/or corrective actions are taken promptly to lower exposure or even to recover overdue debts. In addition, the Group reviews the recoverable amount of each significant individual loan and interest in distressed asset at each balance sheet date to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The credit risk on liquid funds is limited because majority of the counter parties are banks with high credit ratings assigned by international credit-rating agencies and state owned banks with good reputation. The Group has no significant concentration of credit risk, with exposure spread over a large number of counter parties and customers.

6. 財務風險管理目的及政策

本集團之主要金融工具包括可出售投資、不良資產權益、應收貸款、持作買賣投資、應收賬款、按金及其他應收款、應收聯營公司款、銀行監管賬戶結餘、抵押銀行存款、銀行結餘及現金、列作持作出售之資產、應付賬款、租務按金及其他應付款、應付聯營公司款、應付一名股東之控股公司應計管理費、借貸、可換股票據及於損益表按公平值處理的可換股票據。該等金融工具之詳情於相關附註中披露。與該等金融工具相關之風險及如何減低該等風險之政策載於下文。管理層會管理及監察該等風險，以確保及時與有效地採取適當措施。

信貸風險

於二零零五年十二月三十一日，本集團就交易對手未能履行其責任而按各類已確認金融資產面對之最高信貸風險，為綜合資產負債表所述該等資產之賬面值。為盡量減低信貸風險，董事持續監察風險水平，確保能即時採取跟進行動及/或更正行動，以減低風險，或甚至收回逾期債項。此外，本集團會於每一結算日檢討各重大個別貸款及不良資產權益之可收回金額，以確保就不可收回金額計提足夠減值虧損。就此而言，本公司董事認為，本集團之信貸風險已大幅減少。

在流動資金方面之信貸風險有限，原因是交易對手大部分為獲國際評級機構指定為高信貸評級之銀行及信譽良好之國有銀行。由於多個交易對手及客戶分散風險，故本集團並無重大信貸風險集中情況。

On 24 November 2004, the Company issued a convertible note to Citigroup Global Markets Limited ("CGML") in the principal amount of US\$52,500,000 in accordance with a subscription agreement dated 5 November 2004 entered into between the Company and CGML. The interest rate is 1.5% per annum and payable semi-annually in arrears. The Company shall repay the principal amount outstanding under the convertible note to the noteholder together with all interest accrued on the fifth anniversary of the date of the issue of the convertible note. The conversion price is HK\$2.95 per share which is subject to adjustment for, among other matters, subdivision or consolidation of shares, bonus issues, capital reduction, rights issues and other events which have diluting effects on the issued share capital of the Company. The noteholder will have the right to convert the whole or part of the principal amount of the convertible note into shares at any time and from time to time, from the date of issue of the convertible note up to the fifth anniversary of the date of issue of the convertible note in an amount not less than US\$100,000 on each conversion, save that if at any time, the principal outstanding amount of the convertible note is less than US\$100,000, the whole (but not part only) of the principal amount of the convertible note may be converted. The number of shares to be issued on conversion of the convertible note will be determined by dividing the principal amount of the convertible note to be converted (translated into Hong Kong dollars at a fixed rate of HK\$7.80 = US\$1.00 (rounded upwards to the nearest cent)) by the conversion price in effect at the date of conversion of the convertible note. The conversion shares to be issued upon conversion shall rank pari passu in all respects with all other existing shares outstanding at the date of the conversion.

42. 可換股票據

(a) 於損益表按公平值處理的可換股票據

於二零零四年十一月二十四日，本公司根據本公司與Citigroup Global Markets Limited(「花旗集團」)於二零零四年十一月五日簽訂的一項認購協議向花旗集團發出一份本金額52,500,000美元的可換股票據。票據利息以年利率1.5%計算並須每半年以下期形式支付。本公司須於可換股票據發出日期起計的第五個週年日向票據持有人償還可換股票據項下未有贖回的本金額和所有的應計利息。換股價為每股2.95港元，並須受到(其中包括)股份拆細或合併、發行紅股、縮減股本、供股和其他對本公司已發行股本具有攤薄效應的事件的影響作出調整。票據持有人有權於可換股票據發出日期起至可換股票據發出日期後的第五個週年日止期間內的任何時間和隨時將可換股票據之本金額全部或部分轉換股份，惟每次轉換的金額不可少於100,000美元，除此以外，如於任何時間可換股票據的未有贖回本金額少於100,000美元，則可換股票據的全部(而非部分)本金額可予轉換股份。可換股票據轉換股份時需要發行的股份數量乃按照可換股票據需要轉換股份的本金額(以7.80港元兌1.00美元固定匯率折成港元(向上計算至最接近的仙))除以於可換股票據轉換股份當日適用的換股價得出。因轉換股份而發行的股份在各方面均與轉換股份當日所有現有股份享有相同權利。

The stock price was the closing price at the respective balance sheet dates while the expected volatility was determined by calculating the historical volatility of the Company's share price over the previous year.

Because the Binomial model requires the input of highly subjective assumptions, including the volatility of share price, changes in subjective input assumptions can materially affect the fair value estimate.

On 23 November 2004, the Company issued a convertible note in the principal amount of HK\$440 million to Catic Limited, a shareholder of the Company, in accordance with a convertible note subscription agreement dated 20 September 2004 entered into between the Company and Catic Limited. The convertible note contains two components, liability and equity elements. Upon the application of HKAS 32 Financial Instruments: Disclosure and Presentation (see Note 3 for details), the convertible notes were separated into the liability and equity components, on a retrospective basis. The equity component is presented in equity heading "convertible notes equity reserve". The effective interest rate of the liability component is 4.48% per annum.

The movement of the liability component of the convertible notes for the year is set out below:

Less: Amount due within in one year shown under current liabilities	減：一年內到期並列為流動負債之金額	428,836	—
		—	416,835

The interest charged for the year was calculated at an effective interest rate of 4.48% per annum to liability component which was determined when the notes were issued.

The directors consider that the carrying amount of convertible note approximates to their fair value.
